

University Attendance Policy

Students are required to attend at least 75 percent of all scheduled sessions in every registered course. Attendance is recorded at the start of each lecture, laboratory session, and seminar.

A student whose attendance falls below the 75 percent threshold in any course becomes ineligible to sit the final examination in that course. The student must then apply for condonation through the department office and, if condonation is approved, may be permitted to take the examination subject to the conditions stated by the examination committee.

Medical leave supported by a certificate from the university health center is excluded from the attendance calculation. Certificates must be submitted within seven working days of the last day of leave.

Requests for attendance relaxation are reviewed once per semester, after the final week of teaching. Decisions are communicated by the department office by email.
