

## Examination Rules and Eligibility

Eligibility to sit a semester-end examination requires registration in good standing in the course, settlement of all outstanding fees, and satisfactory attendance as defined in the University Attendance Policy.

Students must carry their university identity card to every examination. Entry to the examination hall closes fifteen minutes after the scheduled start time, and no candidate may leave during the first thirty minutes.

Examination scores are released through the student portal within three weeks of the examination date. A re-evaluation request may be filed within ten working days of score release and requires a fee that is refunded if the score changes.

Any candidate found in possession of unauthorized material during an examination is referred to the academic integrity committee.
